Harbor Resources

Dredging – Upper Newport Bay

■ Status:

- 130,000 cubic meters left on Phase I. Completion in April / May.
- Currently working at catch basin Unit I/III near Jamboree bridge, 6 days/24 hours
- 3 disposal scows 1,500 cubic yards x 2 & 3,000 cubic yards
- \$2.87 M funded through the omnibus budget, requested by Reps. Ed Royce, Ken Calvert and Loretta Sanchez. Funds will be used for Phase I currently in progress.
- US Rep. Calvert and Royce have shown support for the Upper Bay Project by asking for \$13 M for the 2010 budget.
- Still waiting on stimulus funding

Dredging – Lower Newport Bay

■ Planning

□ New Fields – Sediment Testing

□ Anchor QEA – Confined Aquatic Disposal (CAD)

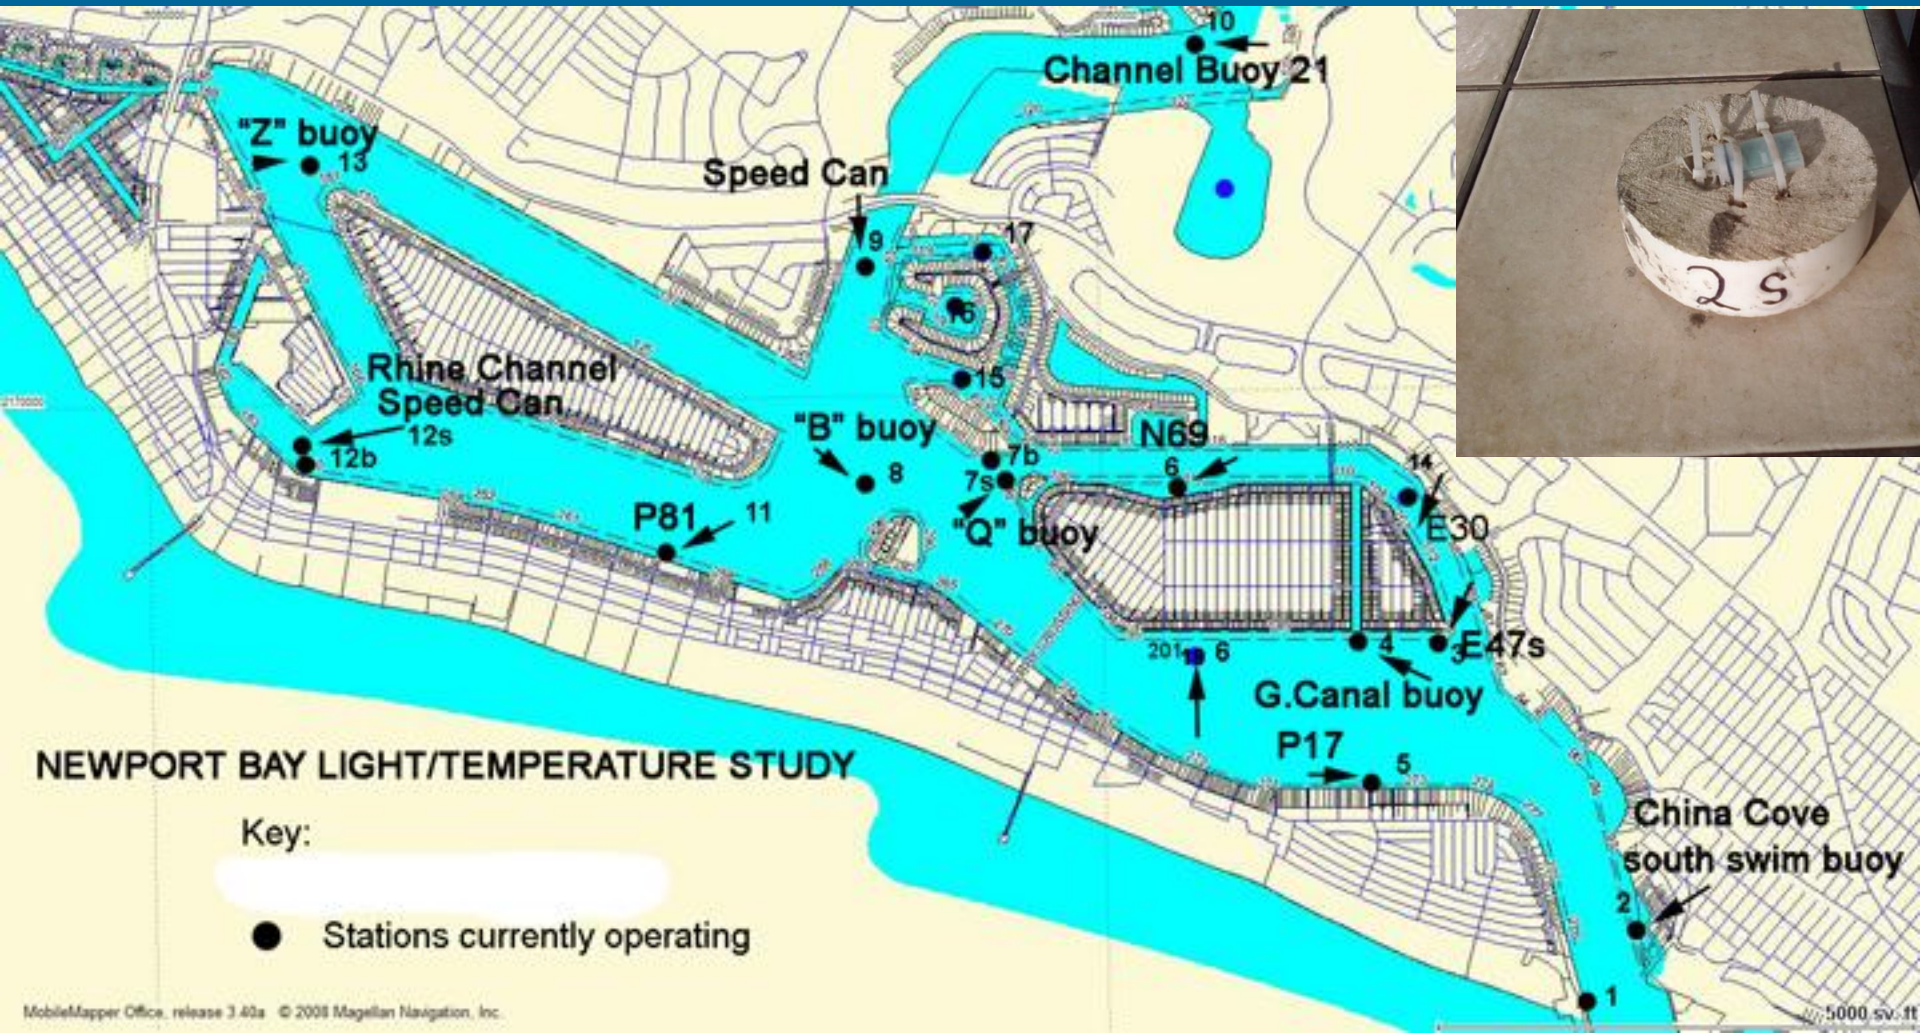

- Conceptual Study complete. Presented to HC in May
- Council request April 14th for geotechnical evaluation (core drilling)
- June/July – If CAD site is chosen as preferred alternative, then Council will review proposal for engineering and CEQA work
 - Timeline: ~ 1 year

■ Council Member Daigle and staff have been speaking to various groups about dredging, including:

- Yachtsman's Lunch, April 1
- Rotary Club
- Balboa Yacht Club, April 9
- Yachtsman's Lunch, may 20

Eelgrass – Temperature and Light Studies

- Data loggers deployed throughout the seasons
- Purpose: To correlate relationship between light, temperature and eelgrass survivability
- Data loggers stationed at various buoys throughout the bay, at the surface and at bay bottom

Heart of the Harbor - NBTV

- Look for the latest Harbor Resources Heart of the Harbor
 - Topic: Pump Outs – Where they are, Why they're important, and How to use them.
